### setup

You are unique and therefore your instrument should be set up for the way you play. Deluxe and Standard setups are set to general specifications that work for most people. If you would like a custom setup, please arrange an appointment so we can talk about your playing style and way to make your instrument work best for you.

Cost of parts or materials if needed are not included.

A new set of strings will be required for setup. Strings may be supplied by you. I will consult you about any hardware pieces that require replacement to allow for a good setup; e.g. electronics, nut or frets.

### Deluxe Setup

The goal of this setup is to inspect the entire guitar and if needed make adjustments. Includes adjustment to neck, nut, frets, string action, intonation, bridge and pickups. Polish the frets, clean and lubricate the hardware, electronics, neck and body.
